A multi-purpose CRUISER for a PERFECT vacation

This model boasts a distinctive and timeless style, along with a unique and multifunctional ergonomic cockpit and bow layout that maximizes comfort on the water. The design and engineering phases were seamlessly merged to optimize living spaces and integrate aesthetic shapes with hydrodynamic and structural requirements. The 28 Cabin guarantees safety and comfort, regardless of the chosen engine, and promises an enjoyable cruising experience even at higher speeds.

CUSTOMIZATION

STANDARD COLOURS

When selecting a yacht, color choice is an important aspect that allows you to express your style. Alfastreet Yachts offer six standard colors in addition to white, providing a range of options to suit different preferences. However, for those seeking a truly bespoke creation, there is an option to choose a color from the RAL scale. This enables individuals to select a shade that perfectly reflects their unique taste and personality, transforming the yacht into a truly personalized creation.

White Custom color

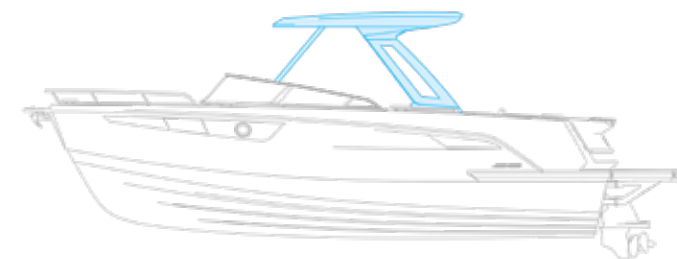

ROOF SELECTION

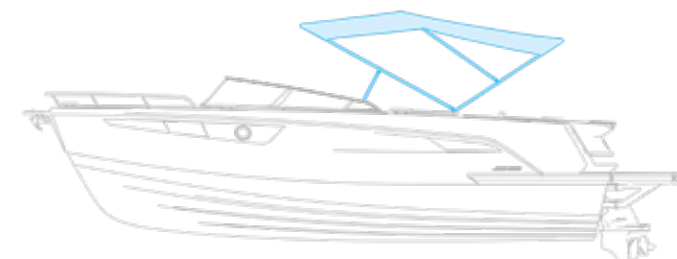

Alfastreet Yachts offer three roof options: Hydraulic Hard-top, T-top, and Bimini, each with its own unique benefits. The remote-controlled Hydraulic roof provides easy access to the cockpit as well as great protection. The T-top roof offers shade and protection while allowing for an open-air feeling. Finally, the Bimini roof is ideal for those who enjoy the sun and want an unobstructed view of the sky. With these three options, individuals can select the roof that best suits their needs and preferences, ensuring that their yacht meets their exacting standards of comfort and style.

LAYOUT CONFIGURATIONS

Customization lies at the heart of a luxury yachting experience. In recognizing this, we offer you the ability to tailor your yacht's layout to your preferences. Delve into the opportunity to customize seating arrangements, adjust the location of additional amenities such as the kitchen, and modify other features to suit your preferences perfectly.

SPACIOUS SLEEPING AND RELAXATION AREA

The sleeping area is carefully crafted with exceptional attention to detail, providing passengers a comfortable and relaxing space. Every detail has been considered to create a serene and peaceful atmosphere, ensuring a luxurious experience during the day and night.
